19. ART - The area in square inches of the drawing *Foliage* by Paul Cezanne is approximated by the equation $y = x^2 - 40x + 396$. Complete the square and find the two roots, which are equal to the approximate length and width of the drawing.

$x^2 - 40x + \underline{400} = -396 + \underline{400}$

$(x-20)^2 = 4$

$x-20 = \pm 2$

$\rightarrow x = 20 \pm 2 = 22, 18$
